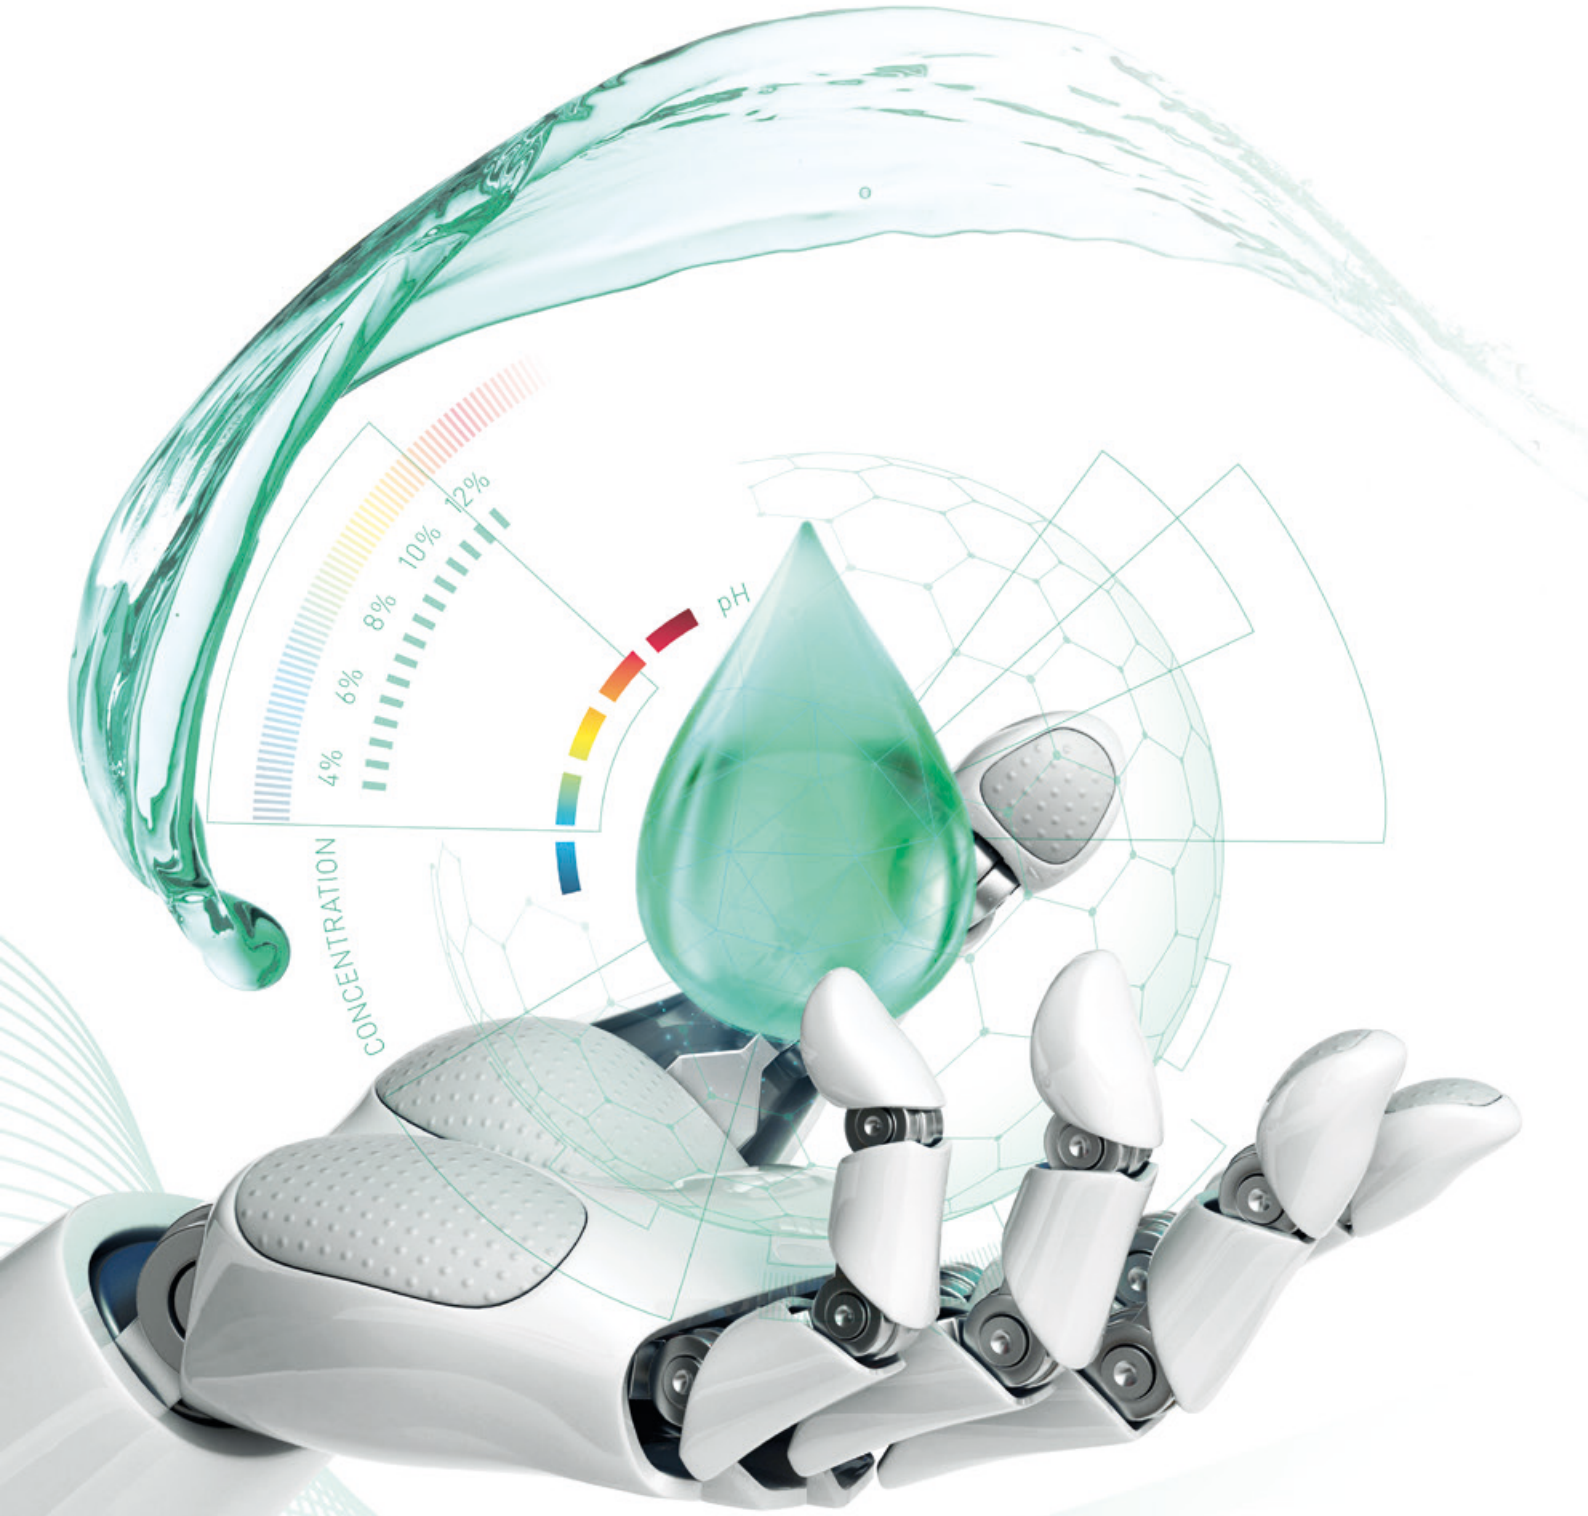
MOTOREX®
Oil of Switzerland



EASYMONITORING

FOR A HIGHER RELIABILITY OF OPERATIONAL LIQUIDS AND MANUFACTURING PROCESSES

MEASURING & DATA REGISTRATION IN **JUST ONE MINUTE**

EASY MONITORING ADVANTAGES:

- Up to ten times faster than stand-alone measurements
- Longer service life of the coolant system
- Low operating costs
- High process reliability
- Serves as a decision-making aid for measures
- Automatic information transfer
- Early recognition of parameters for prevention of corrosion, bad smell, skin irritation and tool wear

STAY IN THE GREEN ZONE!

With the help of EASY MONITORING you can create an exact digital reproduction of your operating fluids. All important coolant parameters are recorded within seconds with high measuring accuracy and stored for further analysis and documentation. The analysis takes place in real time and enables you to detect all deviations and adjust them promptly. Due to the easy implementation into existing CRM systems and coolant portals, the mobile SWISSCARE solution is a cost-effective gateway to the automation of coolant maintenance.

SECURITY AND PRECISION IN **THREE STEPS**

SCANNING

MANIFOLD & PRECISE

- Suitable for all important coolant parameters: Concentration, pH value, nitrite and water hardness
- Precise calibrated colour values
- Photoanalytical data analysis using a registered EASY MONITORING CARD
- Automated data storage for ten years
- Water analysis for osmosis systems, process water, drinking water, pools, aquariums, etc.

MEASURING

EVALUATING

GET IT ON Google Play

Download on the App Store

QUICK & EFFECTIVE

- Initialisation by means of QR code (company, product, source, type of measurement)
- One coolant or water registration within 15 seconds
- TRGS 611 data registration in one minute
- 40 hours saved annually as compared to conventional methods (5-10 min. per measuring procedure)

EASY TO USE

- Quick and easy installation
- Clear and user-friendly interface
- Automated notifications
- Clearly structured processes and history
- Industry 4.0 ready through easy integration into existing CRM systems and coolant portals
- Compatible with all current smartphones and tablets
- WEB platform including QR code generator

CONTENT EASY MONITORING BOX:

- 50 water analysis strips
- 100 emulsion analysis strips
- Digital refractometer (optional)
- Hand refractometer (optional)
- EASY MONITORING CARD

All items are available separately
